

Presbytery of Riverside
Notice of
PER CAPITA APPORTIONMENT

Part of the genius of the Presbyterian form of government is our connectionalism. Though connectionalism manifests itself in a number of ways, one of the most concrete is through the pre capita apportionment. The per capita assessment funds the administrative costs of operating the Presbytery, the Synod, and the General Assembly.

Each church is assessed a per capita amount for each member based on the last year end for which membership statistics have been filed. The per capita apportionment for 2012 is computed on the reported active membership at the end of 2009.

The PCA adopted by the Presbytery of Riverside has remained the same for 2012. \$33.00

It is broken down:

Presbytery of Riverside	\$23.77
Synod of So Cal and Hawaii	\$ 2.60
General Assembly	<u>\$ 6.63</u>
Total for each Member	\$33.00

***There is a separate sheet listing all the churches membership as reported in 2010 and their Per Capita apportionment.**

This information is provided to assist the Session of your church in its budget process.
